Re: Docket No. 97-00888
Request for Designation as Eligible Telecommunication Carrier
Peoples Telephone Company

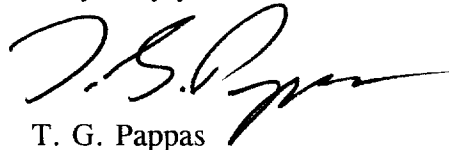

Dear Mr. Waddell:

Enclosed please find an original and thirteen (13) copies of the Request of Peoples Telephone Company for designation as an Eligible Telecommunications Carrier pursuant to the TRA's Order of November 3, 1997.

We would appreciate it if you would call the filing of this Request to the attention of the Directors for their consideration.

Thanking you, with kindest regards, I remain

Very truly yours,

T. G. Pappas

1. As set out in TRA's Order, and pursuant to 47 C.F.R. § 54.201(b) of the rules and regulations of the Federal Communications Commission ("FCC") and 47 U.S.C. § 214(e)(2), the TRA "shall upon its own motion, or upon request, designate a common carrier that meets the requirements of Section 214(e)(1) as an eligible telecommunications carrier for a service area designated by the State Commission." Also, pursuant to 47 U.S.C. § 214(e)(1), a common carrier that has been designated as an eligible telecommunications carrier "shall be eligible to receive universal support in accordance with Section 254."

2. Peoples is a "rural telephone company" as defined in 47 U.S.C. § 153(37). Peoples meets all of the requirements of an ETC or is entitled to a waiver. Accordingly, in this sworn request Peoples affirms that it will: (a) offer and provide the services that are supported by federal universal service mechanisms as defined in 47 C.F.R. § 54.101, except as to the toll control requirement contained within the definition of toll limitation (see paragraph 3 below); (b) provide the services over its own facilities, or a combination of its own facilities and the resale of another carrier's services; (c) that it will advertise the availability of the services that it provides and the charges for those services at each of its business offices, in its telephone directories, and as may otherwise directed by the TRA; and (d) that the service area for which it is requesting ETC status is its incumbent LEC service area which is its "study area," as provided for by 47 U.S.C. § 214(e)(5).

3. With respect to toll limitation services, Peoples submits that virtually no LEC in the nation is capable of providing this service as the FCC has defined it. The FCC has defined "toll limitation" as the provision of both toll blocking and toll control. 47 C.F.R. § 54.400(a)(4). Peoples believes that the "toll control" requirement was apparently added by the FCC at the final stage of the federal rulemaking without much, if any, comment by LECs. Such service would require real-time capability to record and rate every call instantaneously as the caller attempts to make a toll call. See generally 47 C.F.R. § 54.400(a)(3). The ability to provide this service also assumes that LECs will be able to differentiate between toll calls and other types of calls. Peoples has been advised that this misunderstanding regarding rational expectations of LEC capabilities has already been explained to FCC staff, and that the issue will likely be reevaluated in anticipated FCC reconsideration orders. Peoples is prepared to offer

toll blocking. However, it is not prepared to offer toll control for the reasons stated above. Given that the matter of toll control is likely to receive reconsideration Peoples requests that, in a manner consistent with the requirements of 47 C.F.R. § 54.101(c), the TRA grant a blanket waiver with respect to the offering of the "toll control" requirement until such time as the FCC acts upon reconsideration requests of its decision to require toll control.

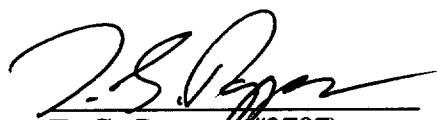

4. Peoples respectfully requests that the TRA designate and certify Peoples as an Eligible Telecommunications Carrier in its "study area" which is its incumbent LEC service area

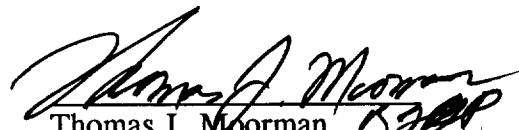

and grant the waivers as requested. Peoples further requests that such designation be made by the TRA prior to January 1, 1998.

Respectfully submitted,

PEOPLES TELEPHONE COMPANY
